## CHINESE TONKIN CANES

Nurserymen realize now that when they go to the labor and expense of planting a block of Shade Trees, it pays to have every tree produce revenue. Crooked and "bow-leg" trees are a dead loss. It pays to buy stakes and make every tree salable. First cost is very little as the stakes can be used over and over again.

We import our Cane Stakes direct from China.

Bale of 300 canes, 7 ft. long, ¾ to ⅞ in. diameter at butt, \$16.25 per bale

Bale of 300 canes, 10 ft. long, ¾ to ⅞ in. diameter at butt, \$24.50 per bale

Sold in full bales only. Prices are for canes F. O. B. Dresher, Pa.

## DUTCH \*\*\*\*\*ATED PEAT

Finest material for purposes or for mixing with soil to loosen it up and add humus. It is necessary where ericaceous plants are propagated. Mixed with sand in your hot beds will give you a better stand of softwood cuttings and reduce fungus and damping off. For winter mulching of lawns and all kinds of flower and seed beds it is far superior to manure, as it does not have to be raked off in the spring and does not contain weed seeds.

We are handling only the very best quality. All brands are not alike in quality. Some brands appear to be cheaper, but there is a great difference in quantity packed in bale. Most cheap brands have 14 to 16 bushels per bale. Our bales run 20 bushels, dry weight. Therefore, in our bales you get a greater quantity of material.

1 to 9 bales at \$2.75 per bale

10 bales and up at \$2.60 per bale

25 bales and up at \$2.50 per bale
